

It's time for us to change that.

Let's learn together on how we can reach out so that everybody is a part of our community no matter how able they are differently abled, blind, deaf you know we are always trying to find the right words to describe people and you know what it doesn't matter what we say about them it's what we do with them that's important

So let's do better, let's just do it, let's fill our hearts and our minds with what we were taught about love and let's spread it around. That's what I would really like, to see change in the little time I'm here so miigwetch, thanks for listening.
